

## **PPLO Report for 2016/17**

This has been another quiet weather year, with very few fallen trees or branches to report. However, there are still some hanging branches above rights of way (ROW), awaiting clearance from previous years

The bridge across The Glen, which was given a make-over in April 2016, is working well and the handrail at the Alfoxton end has also now been replaced. The kissing gate on the A39, at the start of the footpath to the church, has recently been repaired.

Signposts for the Coleridge Way through Holford Parish have been well maintained and reported missing posts have been speedily replaced.
