AA roofing and property maintenance

Quotation for work needed on dog pound at Holford

There's approximately 3 meters of the wall inside the building that needs re-pointing as shown in picture

Also on the outside of the building there's damage to the wall face where rocks have come away.

That will need rebuilding and some re-pointing as shown in picture

Total cost of work to be carried out including materials would be £300 and would take no more than a day
