Hi Hema

Building work started during the first week in October. All is going to plan; as of this week, all footings / concrete base work have been completed and underground water / drainage services connected. The block walls for the new extensions are being erected and the external wall insulation to the existing building has been fitted. Work on the roof is likely to be next.

We have successfully made our first payment request to Viridor Credits. Qube Construct was paid £2920 by Viridor Credits Monday this week for the insulation work. £292 of your Parish Council £10,000 contribution has therefore been used. This reminds me to thank the Parish Council for their support; much appreciated. Future Viridor invoices will be much larger.

Payment claims have also been submitted to the other funders.

The only negative aspect to report is the theft of around £7000 of Qube Construct's equipment which happened mid October. There is to be no police investigation sadly; just a crime number for insurance purposes!

We believe the builders are trying hard to minimise disruption to neighbours but would welcome any feedback.

Hi Alan,

We have our next parish meeting on Monday 12th November. Any chance you can provide an update on the village hall progress?

Many thanks,
Hema Stanley.
