Subject: Re: Hinkley A: EIA screening opinion request - outcome

Morning Councillor Davies,

Just a quick update to let you know that the planning agents working for Magnox have submitted the two section 73 planning applications on the national planning portal and details came through to the county council system at the end of last week.

Now received on our system, the applications have been assigned to a case officer, Charlotte Pope, who will review them for validation purposes ie checking the submissions for completeness. Once validated, the documents will be available on the public planning portal on our website: <https://planning.somerset.gov.uk/>

The case officer will then carry out statutory publicity. This includes consulting relevant statutory consultees, notifying neighbours, putting up site notices and placing adverts in local newspapers, allowing a 21 day consultation period. She will make contact with you in due course as part of the formal consultation for the planning applications. *Closing date was 10th July 2019*
Now extended to — 20th July 2019

If you have any questions in the meantime, please come back to me.

Once the application details are available on the public portal for review, we can arrange a briefing session with you if that would be helpful?

Regards,

Louise

Louise Martin
