

PPLO Report for 2019/20

It has been another quiet year for the rights of way network in Holford parish, if rather muddy. No major problems were reported this year. A rotten fingerpost was replaced at the start of the footpath from the A39 to the church and there is also an ongoing Rights of Way Issue to 'improve the drainage along the bridleway to Alfoxton House'.

The Coleridge Way through Holford parish is in good form, though there has been the mystery appearance of a large stone/rock pile appearing around the waymarker post on Woodlands Hill a couple of times. The AONB rangers have removed them each time.
