Re: Holford & District Village Hall funding application

To whom it may concern.

Holford Parish Council fully supports this funding application to help improve the facilities of the village hall.

The hall is used by a large number of persons for various activities from celebration parties, to get fit classes and toddler activity groups to name a few.

The current bathroom, lighting & heating facilities are out-dated and need improvement to better cater for the activities for which the hall is used.

The village hall committee has worked hard to consult with people and produced a comprehensive and well planned use of the land available to them.

Holford Parish Council hope that funding for the required improvements is granted for the better of our village.

We look forward to a successful outcome.

Debbie Salvidge. (Chair person)
