

PPLO Report for 2021/22

The rights of way network in Holford parish has continued to have greater use, due to Covid, as people having discovered the Quantocks continue to enjoy them.

The Coleridge Way through Holford parish is well used and continues to enjoy prompt maintenance and good signage. Flailing of local hedges has caused two incidences of fingerpost damage, resulting in replacement fingerposts!

We also lost two of the huge old beech trees edging the Great Road on Longstone Hill, which finally fell over creating large clean-up operations.

So no real major problems to report.
